

PRODUCT REFERENCE / ENGLISH

Round epoxy RFID tag

A compact PVC and epoxy format for access and membership projects. Define artwork and credential requirements as one brief.

MODEL REFERENCE	LISTED MINIMUM
TAG25	500 pcs

CATALOG PARTICULARS

Material	PVC + epoxy resin
Listed dimensions	Ø 25 mm
Chip / frequency	Catalog options: LF / HF, IC / ID; 125 kHz or 13.56 MHz. Confirm the exact chip and selected configuration; this is not a dual-frequency claim.
Branding	Custom designs and colors are listed. Confirm the printing method, artwork template, logo area and final finish.

BEFORE BULK APPROVAL

- System & configuration.** Share the reader or lock model. Confirm the exact chip, dimensions, material, color and hardware.
- Artwork & sample.** Agree the logo area, process, numbering and encoding. Review a finished sample and test it on the intended system.
- Order & delivery.** Confirm quantity, current price, sample charges, production timing, packing, shipping and quotation validity.

Catalog reference only. This sheet is not a quotation or test report. Confirm final specifications, sample approval and commercial terms before ordering.
